Username : bagusprime

The screenshot shows the MATLAB IDE interface. The Command Window on the left displays the execution of a script named 'tugas2'. The script prompts the user to enter a value, which is 78. It then calculates the sum of numbers from 1 to 5 (which is 15) and displays the grade 'B'. The Workspace window shows variables 'jumlah' (15), 'nilai' (78), and 'x' (1). The Command History window shows the sequence of commands executed. The Editor window on the right shows the source code of the script 'tugas2.m'.

3 %username = bagusprime
4
5 nilai = input('Masukkan nilai Anda: ');
6
7 if nilai >= 0 && nilai <= 100
8     if nilai >= 80
9         disp('Grade: A');
10    elseif nilai >= 65
11        disp('Grade: B');
12    elseif nilai >= 50
13        disp('Grade: C');
14    else
15        disp('Grade: D');
16    end
17 else
18     disp('Nilai tidak valid');
19 end
20
21 x = 1;
22 jumlah = 0;
23
24 while x <= 5
25     jumlah = jumlah + x;
26     x = x + 1;
27 end
28
29 fprintf('Jumlah total dari 1 sampai 5 adalah: %d\n', jumlah);
```
